

AUTOMATIC AGENCY MARKETING METHOD AND THE SYSTEM OF THE SAME

ABSTRACT OF THE INVENTION

5 The present invention relates to providing a technology for
readers to rapidly note record the needed information on the
Internet for use. The readers can make use of the Note
Record Object, the asynchronous Operation Object, and the
File Operation Object to enable them to note record the
10 needed information on line more easily. The File Operation
Object can produce/delete a folder and a file. The
Asynchronous Operation Object can transmit asynchronously
various kinds of files between the reader and the server. The
Note Record Object can write/insert the letters, the pictures
15 and the medium objects into various kinds of files.
